19. Does your college offer Career and Technical Education Programs?

Yes	No
-----	----

If you answered no, skip to question 20.

19a. Job placement rates for students completing certificate programs and CTE (career-technical education) degrees for last three years available data:

For the purposes of the Annual Report, Job Placement Rate is defined as the percentage of students who are employed in the year following completion of a CTE (career-technical education) certificate or degree program. (This means that the denominator for the 2022-23 job placement rate will be the number of students who completed the program in 2021-22.) Report only those programs with a minimum of 10 students in the completion year. For example, if a program had 9 students complete in 2021-22, you do not need to report a job placement rate for 2022-23. Report only those programs for which reliable data are available. If your institution has defined its job placement rate differently than what is described above, you may complete this question using your local definition – but please describe your definition and methodology in Question 19.

Program	Institution-Set Standard (%) (Floor)	Stretch (Aspirational) Goal (%)	2022-23 Job Placement Rate (%)	2023-24 Job Placement Rate (%)	2024-25 Job Placement Rate (%)
Basic	100	0	99	99	99
Intermediate	100	0	99	99	99
Advanced	100	0	99	99	99
Defense Threat Reduction agency	100	0	99	99	99

20. Please use the text box below to provide any comments or context regarding the data submitted in this report (optional, no word limit):

6. Program growth or decline is budgeted through a multi-year resourcing process. 12b. Course Completion: Defined as the successful completion of a language program of study. DLIFLC has identified a separate metric benchmark from the current institution-set standard. The stretch goal is for 40% of basic course students to graduate with a L2+/R2+/S1+, and 10% to graduate with L3/R3/S1+ (i.e., higher levels of language proficiency). FY25 Basic Course stretch goal metrics are 35.3% and 8.4%, respectively, for the higher standards. 13. All students who complete a language program receive a linguist certificate, the stretch goal is linked to the course completion goal, not the number of certificates. 14 and 15. The military services do not require DLIFLC graduates to have a degree in order to perform their military jobs. However, possessing a degree may help a service member advance in rank. DLIFLC does not have an institution-set standard for the number of degrees awarded or a stretch goal for the number of degrees awarded because it does not control enrollments or whether the service member chooses to pursue a degree with additional coursework. 17. DLIFLC does not track graduate data on transfers during or after service. 19. All DLIFLC graduates are gainfully employed by their military services upon completion of their language program. However, a few are moved into non-linguist positions after graduation.

21. Reflecting on your Institution's student achievement(s), what efforts/initiatives/competencies have you found to be fundamental in supporting the recent successes you've observed/reported? Please describe any innovations and improvements along with a brief narrative of how it was achieved.

Data Dashboards: DLIFLC is maturing with its use of internal dashboards for outcomes tracking for all training and education programs. This has shifted conversations to outcomes and initiatives. Entrance Qualifications: Throughout FY25, DLIFLC monitored changes to student entry requirements in order to make recommendations on qualifications to Recruitment Command. This has the potential to enroll more highly-qualified service members and reduce attrition.

22. What professional development can the Commission coordinate to support your Institution in achieving its student success goals within the next three-year cycle?

Continued professional development around data and using data disaggregation to inform decision-making in different contexts and data storytelling.
